CAMP INFORMATION

PITCHING CLINIC
At our pitching clinic, participants will rotate through several stations: fundamentals and mechanics of the motion, movement development, accuracy charting, speed and drill work, and overall evaluation (observed by Coach Hanrahan). The DePauw pitching staff will facilitate instruction alongside Coach Hanrahan.

Pitchers are asked to provide their own catchers (if this is not possible, please contact Coach Hanrahan at your EARLIEST convenience). *Please note that this clinic will not include hitting instruction.

ALL SKILLS CLINIC
The all skills clinic will include both defensive and offensive instruction. Clinic participants will work with DePauw coaches and current players in these two areas.

There will be a breakdown of every defensive position in order to focus on the specific fundamentals central to each position (excluding pitcher).

Offensively, the coaching staff and players will work on specifics to increase bat speed, maximize efficiency within the swing, generate momentum in the load, and develop extension and power. Various slapping fundamentals will also be covered.
