In the event of an explosion or similar emergency:

- **Immediately take cover** under tables, desks, etc., which will provide protection from falling glass or debris. Safely move away from heat sources, smoke and fire.

- **Phone 911** and give the dispatcher the following information:
  - Location.
  - Area where explosion occurred.
  - Cause of explosion, if known.
  - Injuries.

- **Before you hang up,** make sure the emergency services dispatcher has all of the necessary information.

**Evacuate the area** as soon as it is safe to do so, following established building evacuation procedures.
