Dear DePauw Computer Science Graduate,

This fall marks the fifteenth year anniversary of the formation of DePauw’s Computer Science Department. While we offered a strong major in computer science even before this time, the creation of an independent department was an important event and is one that we wish to celebrate.

In honor of our anniversary we would like to extend a special invitation for you to visit with us anytime you are back on campus this year. Whether you are on campus for the upcoming presidential inauguration, Old Gold, the Monon game, commencement weekend, or reunion weekend we would love to greet you and show you our facilities. In particular, if any of you plan to be on campus for the inauguration on October 10th please note that most of the department faculty will attend a reception in the atrium of the Percy Julian Science Building from 1:30-2:30pm that day. We would love to see you there!

We are in the process of finalizing a new departmental strategic plan that will guide us through the coming years. The plan will outline ways that we can continue to build on our strengths with respect to: (a) offering a first-rate curriculum (look for some new courses), (b) providing a welcoming community for our students, and (c) updating our computing resources and technology infrastructure. We plan to share the highlights of this plan with you in the coming months as part of a regular alumni newsletter that we will be instituting. Watch for details soon.

Please contact any us if you plan to visit in the coming weeks, months, or years! In the meantime, feel free to check out our department home page to learn more about what we are doing: http://www.csc.depauw.edu/index.shtml

Best,
The Computer Science Department
