

Student Profile Overview

To view a student's profile, simply click the student's name via the link anywhere in Campus. The Overview will be the first tab displayed.

Student profiles are at the center of the advising application. However, to understand the importance of what the student profile can do, some background understanding is required which is covered in this overview. The student profile is a set of information about the student and their academic performance at your institution. It has details similar to a limited SIS profile. However, the SSC profile significantly differs in its focus and contains information centered on proactively identifying the level of support students need to graduate in their major and providing the tools to support the student.

Depending on your role and permissions, what you can see in the student overview may be different.

The Academic Summary shows the student's major and division, number of Ds and Fs the student has received, number of repeated courses and withdrawals, the support indicator for the student for his or her major, and most recent term of enrollment.

Users can also see the student's major, GPA, total credits, institution completion ratio (earned credits divided by attempted credits), missed number of success markers, number of staff alerts, categories/tags, staff working with the student, and if the student has received any support on campus. By rolling over underlined information, users will get more detailed information.

There are a few key resources available to you under the student's name and on the right side of the page:

1. **Reports/Notes** The Reports/Notes is perhaps one of the most informational tabs on the student's profile. It contains information on previous student interactions with advisors across campus, along with any reminders you set.
2. **Success Progress** Success Progress shows the student's academic summary as well as success markers and the student's performance against the success markers. SSC leadership is currently working with department chairs to determine departmental success markers, which are a course or group of required courses key to student success within a major, frequently first and second year courses, which are entered into site so that advisors can identify and intervene with students who not completing the markers. These are based on the timeframe (credit accumulation) by which students must complete the course and the recommended grade threshold that students should achieve.
3. **Class Info** The first grid displays the student's schedule for the current term. The second grid provides a term-by-term view of the student's academic record, together with important metrics like term GPA and completion ratio. Some high school and pre-enrollment data is provided. For information on the student's completion of graduation requirements, you can click on the "Advising Transcript" link available on the right side of the page, under "Links."
4. **Major Explorer** The Major Explorer provides information to help guide the student and advisor about major decisions. This function draws on an external database of occupations that is incomplete. DePauw has asked

SSC to provide an enhancement to this feature. While it can be somewhat useful, another resource free and available to students and advisors is [What Can I Do With This Major](#), made available by the Hubbard Center.

5. **More: Calendar, Appointments** From this page you can select to see the student's calendar, which includes the course schedule laid out in calendar format and any appointments scheduled in the past or future. You can also select Appointments to see a list of past and upcoming appointments the student has scheduled.
6. **Message Student** Messaging a student from Campus allows you to send an email directly to the student's DePauw email and preserve that email as part of the student's record. It is possible to add attachments and copy yourself, which sends the copy to your DePauw email.
7. **Add a Note on this Student** This is a direct link to add comments about the student that come from outside an advising interaction.
8. **Add a Reminder to this Student** There may be times when you want to follow up with a student about something, or you've asked the student to follow up with you. By adding a reminder, this is placed on the student's page and will be visible from your main Advisor Homepage.
9. **Report on Advising** This is a direct link to add an comments about the student that come from a walk-in advising interaction.
10. **Schedule an Appointment** This is a direct link to create a scheduled appointment for this specific student.
11. **Add to Watch List** This allows you to directly add a student to a new or existing Watch List, a static group of students that you can continually monitor over time.
12. **Links:** This includes direct links to the e-services Advising Transcript and other resources.
