Definitions:

Seat Cap: For passes, it's the maximum number of concurrent seat activations allowed

Period Activations: Number of times pass/license was activated and access was granted to a user in a monthly period
Period Activation Rate: Period Activations over Seat Cap
Period Expirations: Number of passes/licenses losing access in a monthly period
Active Seats: Number of passes/licenses with access at the end of each month
Active Seat Rate: Active Seats over Seat Cap

Usage Sessions: Usage is measured on users with access and sessions are the series of continuous web or app views and interactions. A session ends when a user is idle for 30 minutes.
Page Views: Number of times a web or app page was loaded or refreshed by users with access
News Articles Read: Number of unique articles accessed by each user (not counting multiple views by the same user to the same article)
