

CORONAVIRUS/COVID-19 INFORMATION

1.

CARE OPTIONS FOR COVID-19

IF YOU OR A FRIEND IS SICK OR HAS SYMPTOMS, SUCH AS:

- A fever above 100.4° F/38° C
- A cough, or
- Experience shortness of breath

CONTACT one of the following for a health assessment. Do NOT go directly to a medical facility. Do NOT report for work.

- **During the hours of 9 a.m. – 4:30 p.m., Monday through Friday**

Your primary health care provider, which may be DePauw Health – 765-658-4555

- **24 hours per day:**

HRH Hotline – 317-520-5500

Indiana State Department of Health – 800-382-9480

IF YOUR PRIMARY CARE PROVIDER IS DEPAUW HEALTH:

At this time, DePauw Health plans to remain open for the remainder of the semester; we will post updates to the clinic schedule at www.depauwhealth.org. **If you are sick or symptomatic, call DePauw Health at 765-658-4555; do not go directly to the DePauw Health clinic.**

FREE VIRTUAL HEALTH SCREENINGS

- Hendricks Regional Health is currently offering free 24/7 virtual COVID-19 screenings through the MyVirtualHealthApp. Go to www.hendricks.org/coronavirus for instructions to download the app and retrieve the free coupon code.

2.

IF YOU HAVE A MEDICAL EMERGENCY, call 911 and tell them your symptoms. If you suspect you may be infected with the virus that causes COVID-19, tell them this, too.

3.

WHAT YOU CAN DO

- If you don't feel well, don't be around others. Do NOT go to work. Call your Supervisor to let them know you are not feeling well.
- Don't gather in groups more than 10 unless you can remain 6 feet away from other people (social distancing) due to the social distancing recommendations of national and world health organizations. On-campus social gatherings (such as receptions or parties) of 10 or more people for those remaining on campus are not permitted.
- If you notice someone else is sick or doesn't seem to be themselves, encourage them to check in with the Hendricks Regional Health Health Manager specific for DePauw University at 765-658-4937; they are available daily between the hours of 8 a.m. and 5 p.m.
- Clean your hands often. Wash your hands often with soap and water for at least 20 seconds, especially after you have been in a public place, before eating, after blowing your nose, coughing, sneezing or eating. Use a hand sanitizer that contains at least 60% alcohol if you don't have access to soap and water.

In the event someone in our DePauw community has the virus that causes COVID-19 or is presumptive positive, you will receive a text message through our emergency notification system. You may be asked to immediately separate yourself from others and await further instructions.

Social distancing (staying more than 6 feet away from other individuals), cleaning your hands with soap and water or hand sanitizer, and avoiding close contact with individuals who are sick or symptomatic are the key ways to prevent transmission of the virus that causes COVID-19.
