

Environmental Fellows Program
Petition for Course Credit

Student Name: _____

requests that the following course:

Course Department and Number: _____ Instructor: _____
Course Title: _____ Semester: _____

be counted toward the Environmental Fellows Program course requirements in:

- Category 1 (Arts/Humanities/Social Sciences)
- Category 2 (Natural Sciences)

Rationale:

For Instructor Use: *Courses that have not already been designated as satisfying the Environmental Fellows Program course requirements may be approved for such credit by petition if **a substantial portion of the student's work in the course has an environmental focus.** If the course is not designed to include this much environmental content, this may be achieved through flexibility in the topical focus of student's assignments, and/or by assigning additional reading and/or writing. Instructors have complete discretion as to the availability and nature of such adjustments.*

- I approve the student's petition to count the course listed above toward Environmental Fellows Program requirements.
- I do not approve the student's petition to count the course listed above toward Environmental Fellows Program requirements.

Nature of course adjustments, if any:

Instructor

Date

For Office Use: *Approval of student's petition must be agreed to by both the student's program advisor and one of the EFP Co-Directors.*

- Petition approved.
- Petition not approved.
