What is Timmy?

Timmy Global Health is a non-profit organization dedicated to sustainable health care in the developing world. Timmy's mission includes:

- Providing direct medical assistance and healthcare services to low income communities,
- Strengthening partner organizations by providing them with the financial, medical, and human resources required to build their capacity and strengthen their outreach, and finally
- Fostering global awareness and humanitarian values in university students and volunteers by empowering them to actively engage in global development

How can YOU get involved?

There are many ways that you can help Timmy build healthy futures in the places where we work. You can help by:

- Providing financial support in donations or fundraising
- Donating medical supplies
- Participate as a medical professional
- ...And so much more!

Calling all Medical Professionals!
