Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Native Hawaiian or Other Pacific Islander	0	0
White	11	2

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	0	0
No Race/Ethnicity Reported	0	0

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2020-21.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

What are CIP Codes?

☐

No teachers prepared in academic year 2020-21

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2020-21. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

☒ Yes

☐ No

☐ No teachers prepared in academic year 2020-21

Program Assurances

THIS PAGE INCLUDES:

>> [Program Assurances](#)

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.
- ☒ Yes

☐ No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.
- ☒ Yes

☐ No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.
- ☐ Yes

☐ No

☒ Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.
- ☒ Yes

☐ No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.
- ☒ Yes

☐ No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.
- ☒ Yes

☐ No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.
- ☒ Yes

☐ No
8. Describe your institution’s most successful strategies in meeting the assurances listed above:

Through multiple courses and clinical experiences, students meet these assurances. These include MUS 263 (Music for Students with Diverse Needs), MUS 451 (Student Teaching in Music), MUS 452 (Senior Seminar for Music Educators), and clinical experiences in both urban and rural settings. The DePauw Music Teacher Education Program (MTEP) has established minimum criteria for diversity of clinical placements that every MTEP student must meet. All MTEP students have four separate 10-week field experience placements and one 3-week internship. Over the course of these five placements, which are completed prior to student teaching, the following criteria for clinical settings are met by each MTEP student: 1) >10% special education population, 2) >5% English Language Learners (ELL), 3) >33% non-white population, and 4) >33% Free/Reduced Lunch.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(\\$205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes
- ☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The DePauw Music Teacher Education Program (MTEP) has incorporated the International Society for Technology in Education (ISTE) Standards for Educators into its curriculum. The ISTE standards are addressed multiple times in MTEP courses; however, each standard is specifically addressed and assessed in specific courses as follows. Standard 1, Learner, is addressed in MUS 255, Instrumental and Choral Music Education Lab. MTEP students enroll in this course three times, as a first-year student, sophomore, and junior. Standard 1 is addressed and assessed with the first-year students by the completion of a project. Standard 2, Leader, is addressed in MUS 352, Secondary Vocal Music: Methods, Materials and Curricula, a class for vocal students, and in MUS 354, Elementary and Secondary Instrumental Music: Methods, Materials, and Curricula, a class for instrumental students. Standard 3, Citizen, is addressed in MUS 355, Secondary General Music: Methods, Materials, and Curricula. Standard 4, Collaborator, is addressed in MUS 263, Music for Students with Diverse Needs. Standard 5, Designer, is addressed in MUS 255, Instrumental and Choral Music Education Lab. MTEP students enroll in this course three times, as a first-year student, sophomore, and junior. Standard 5 is addressed and assessed with the sophomores via an assignment. Standard 6, Facilitator, will be addressed in MUS 351, Elementary General Music: Methods, Materials, and Curricula. Standard 7, Analyst, is addressed in MUS 255, Instrumental and Choral Music Education Lab. MTEP students enroll in this course three times, as a first-year student, sophomore, and junior. Standard 7 is addressed and assessed with the juniors via an assignment. Other ways in which MTEP students are prepared to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and

analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement include using and evaluating digital music curricula, arranging developmentally appropriate music using music notation software (such as Finale or Sibelius), demonstrating proficiency in the use of video technology by creating developmentally appropriate instructional videos for use by P-12 music students and uploading them to their professional websites as well as recording and uploading videos for peer and instructor evaluation, using technology effectively to collect, manage, and analyze P-12 student data during the implementation of a multi-week unit during student teaching, and attending a DePauw Music Education Professional Learning Community Workshop, presented by one or more in-service music teachers, on the topic of technology. In addition to these measures, MTEP students are prepared to use the principles of Universal Design for Learning in MUS 263, Music for Students with Diverse Needs, and MUS 355, Secondary General Music: Methods, Materials, and Curricula.

Provide the following information about your teacher preparation program.

(§205(a)(1)(G))

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Through readings, assignments, activities and field work for MUS 263, Music for Students with Diverse Needs, MTEP students are thoroughly prepared to effectively teach students with disabilities. Though diversity, inclusion, differentiation, and other relevant topics are addressed throughout the MTEP curriculum, MUS 263 is the course devoted entirely to preparing pre-service music educators to effectively teach students with disabilities. The MUS 263 Course Objectives include the following: respect and appreciate diversity; examine personal assumptions and stereotypes of people who are different from themselves; develop a language to discourse about differences; expand understandings of diversity and its relevance to achievement; understand the impact of legislation and educational policy on students with diverse needs; identify teaching practices that include and exclude students who are different; gain an awareness of student capabilities and educational challenges through observation of and interactions with individuals with diverse needs; demonstrate an understanding of diversity by responding appropriately according to individual needs; design standards-based instructional music lessons to reach all learners; select assessment tools for measuring student progress in learning; and, apply positive behavioral supports and interventions to address student and classroom management needs. Relevant course topics in MUS 263, Music for Students with Diverse Needs, include the following: overview and history of special education; special education procedures, policies, and processes; Individualized Education Programs (IEP); inclusive principles and practices; teaching strategies for successful inclusion; accommodations and assistive technologies; music education service delivery options; Response to Intervention (RTI); Universal Design for Learning (UDL); and assessment of learner progress.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

MTEP students learn about the Individuals with Disabilities Education Act (IDEA) and individualized education programs (IEPs) as well as how they will participate as members of IEP teams in multiple courses. The course that most extensively prepares students for this responsibility is MUS 263, Music for Students with Diverse Needs.

c. Effectively teach students who are limited English proficient.

MTEP students learn strategies for teaching students who are limited English proficient in MUS 263, Music for Students with Diverse Needs. In addition to completing relevant readings and assignments, and receiving information from a WIDA-trained specialist, all MTEP students observe a WIDA-trained teacher in a class with English Language Learners and complete a project based on this observation. MTEP students gain experience working with students who are limited English proficient in at least one of their five field experience placements. The MTEP has established a minimum criteria that all students must meet to ensure diversity of field placements. One criterion is that the school must have an enrollment of English Language Learners that is greater than five percent.

2. Does your program prepare special education teachers?

☐ Yes

☒ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

c. Effectively teach students who are limited English proficient.
